

Project Plan (Tentative)

Week 1:

We will document user stories, discuss our project flow, conduct research, and decide on our theme.

Week 2:

We will start our frontend development using Vite+React and complete user stories 1.1, 2, 3, and 5, which include the Signup, Login, OTP page, and Forgot Password page.

Week 3:

We will finalize the Figma file, begin backend development by installing Node.js libraries, and complete the backend for the user stories mentioned in Week 2.

Week 4:

We will complete both the backend and frontend for user stories 6, 8, 9, and 11. Additionally, we will begin working on user stories 10 and 12, which involve connection requests.

Week 5:

We will complete both the backend and frontend for user stories 10, 12, 14, 15, 16, and 17, and start working on user story 18, which involves posting.

Week 6:

We will complete both the backend and frontend for user stories 18, 19, 20, 21, 22, and 23, and begin working on user stories 25, 26, and 27.

Week 7:

We will complete both the backend and frontend for user stories 25, 26, 27, 28, 31, 32, 34, 36, and 37.

Week 8-9:

We will complete both the backend and frontend for user stories 1.2, 4, 7, 13, 24, 29, 30, 33, 35, 38, 39, and 40.

P.S: After every two weeks we would like to give Demo.
